The sum which has been expended by your Board, in addition to the disbursements made for the Current support of the Hospital, is extremely large, and yet, every dollar disbursed for the various betterments referred to was wisely and carefully expended and provided improvements that were much needed.

PATHOLOGICAL LABORATORY

There was a slight increase in the amount of work done in the Pathological Laboratory this year over the preceding year.

Two new tests have been incorporated in the regular routine: The Blood Sedimentation Test which is an aid in differentiating an infectious process from a purely mechanical disturbance in the body; and the Aschheim Zondex test, a biological procedure which has proved of considerable aid in the treatment of Female patients.

It is not the policy of the Laboratory to perform tests of a research character, but to concentrate on the accurate performance of those tests which have demonstrated their usefulness and dependability. It is felt that these two new tests are worth consideration.

**At a Meeting of the Board of Trustees of
THE ROOSEVELT HOSPITAL**

held May twenty-seventh, nineteen hundred and thirty
the Chair announced with sorrow the death on the fifteenth
day of May, nineteen hundred and thirty, of

W. EMLEN ROOSEVELT

the President of the Board of Trustees of The Roosevelt Hospital, in his 74th year.

Mr. Roosevelt was elected a Trustee in February, 1894, and became Secretary of the Board of Trustees in 1898, which office he held until his election as President in February, 1913. When assuming his office, he stated, "That he would devote the best of his abilities towards maintaining the standards of the Hospital and furthering its success," and we, his associates, are duly conscious of how well he lived up to his highest hopes.

In reviewing the thirty-six years during which Mr. Roosevelt was associated with the Hospital, the Board finds it difficult to adequately express their loss or to evaluate the great progress made by the Hospital under his able and wise leadership as President.

While the Funds for Endowed Beds and Memorials have materially increased during the years that he has been President, and while many improvements have been made in the old Hospital buildings, the erection in 1922 of a modern Ward Building, accommodating 290 patients, ranks as the outstanding contribution to the group of Hospital Buildings.

He brought to the Hospital the benefits of his financial foresight and keen judgment, and impressed upon all of those with whom he came in contact in the Hospital the fairness of his judgments and the desire to be of service.

Now that his work has ended his associates with sorrow record this sincere tribute and will ever be mindful of his memory. Now, therefore, be it

RESOLVED

that this minute be entered on the minutes of the Board and that a copy be sent to the family of Mr. Roosevelt as an expression of their sympathy.

The above Resolution was
unanimously adopted by a standing vote.

LEWIS L. DELAFIELD, JR.,
Secretary.

SCHOOL OF NURSING

March 26, 1931.

TO THE BOARD OF TRUSTEES OF THE ROOSEVELT HOSPITAL:

Gentlemen:

I have the honor to present the 34th Annual Report of the School of Nursing for the year ending December 31, 1930.

Miss Isabel Douglas Richmond, Director of the School for twenty years, retired July 1, 1930, and the last half of 1930 has been one of "carrying on" by your new Director, a graduate of The Roosevelt Hospital School of Nursing, Class of 1911.

There have been no changes in the Faculty and but few in the Head Nurse Staff. The appointment of Assistant Head Nurses on all wards and General Duty Nurses to help in the care of patients has enabled us to give better nursing care and to improve classroom and bedside teaching. Four hundred and six hours of practice and theory have been added to the curriculum. A new study room with adjoining offices for the three instructors has been equipped on the second floor of the Administration Building. The affiliations with Bloomingdale Hospital, Henry Street and Willard Parker are proving of great value to our students.

The Commencement Exercises for the Class of 1930 were held in the Syms Operating Building on Tuesday evening, May 6th, Mr. Thomas S. McLane presiding. The address to the Graduating Class was given by Dr. Dudley D. Stetson, and the School Pins were presented by Mr. McLane.

Three graduates of the School were taken from our midst by death: Miss Celia M. Wetmore—Class of 1922, Miss Violet Winifred Culver—Class of 1929, and Miss Kathryn Agnes Sellman—Class of 1927.

The Registry for Private Duty Nurses has had a good year in spite of the financial depression. One hundred and sixty-five nurses are registered.

Nurses called for Private Pavilion	1,551
Nurses called for Outside Duty	467

The Report of the Alumnae Association, under the able guidance of Miss Nina D. Gage—Class of 1908, is most encouraging. We have 416 members. The *Alumnae Quarterly*, started by Miss Gage

in 1929, and now edited by Miss Harriet Jane Smith—Class of 1909, is a very attractive bulletin and most interesting to all graduates of the School.

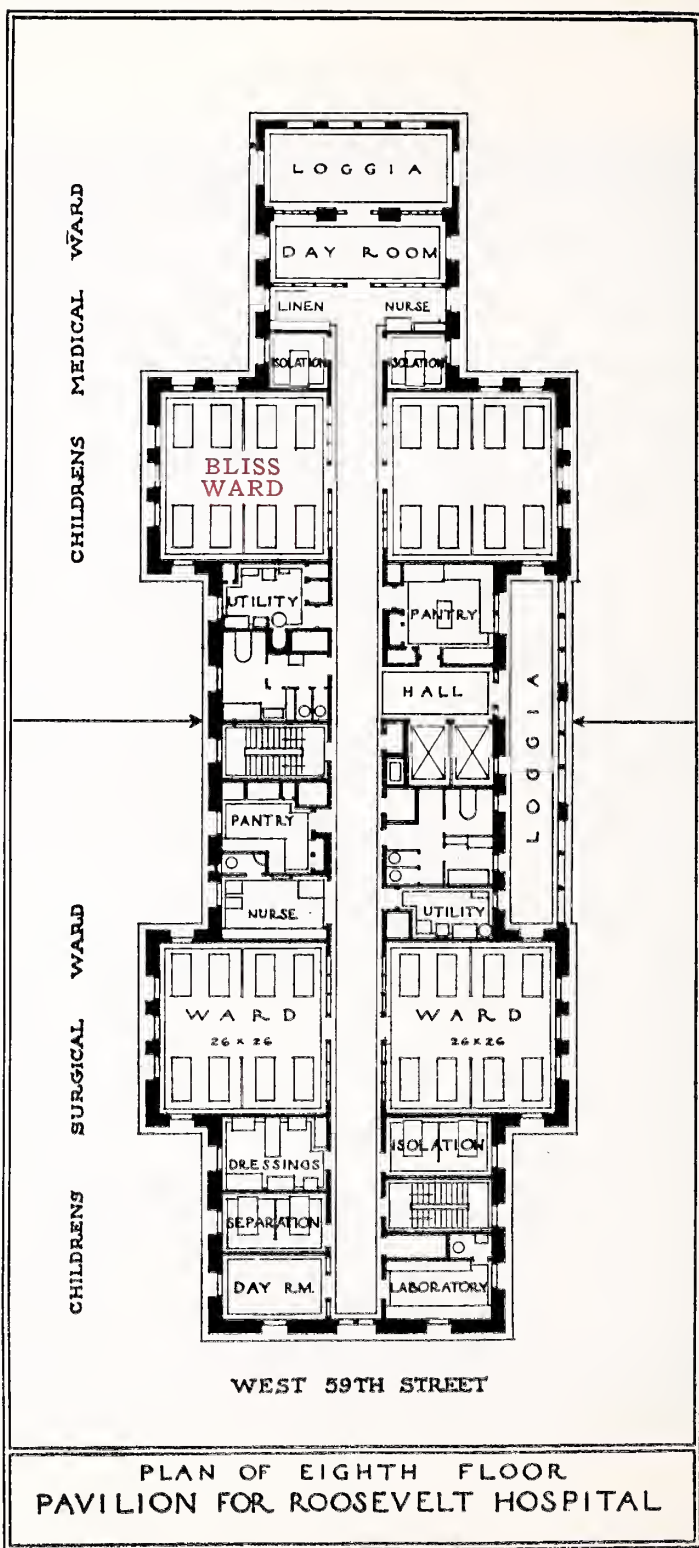

To the Board of Trustees, the Attending Staff, the House Staff, the Nursing Staff and our many loyal graduates we are deeply indebted for their support and coöperation.

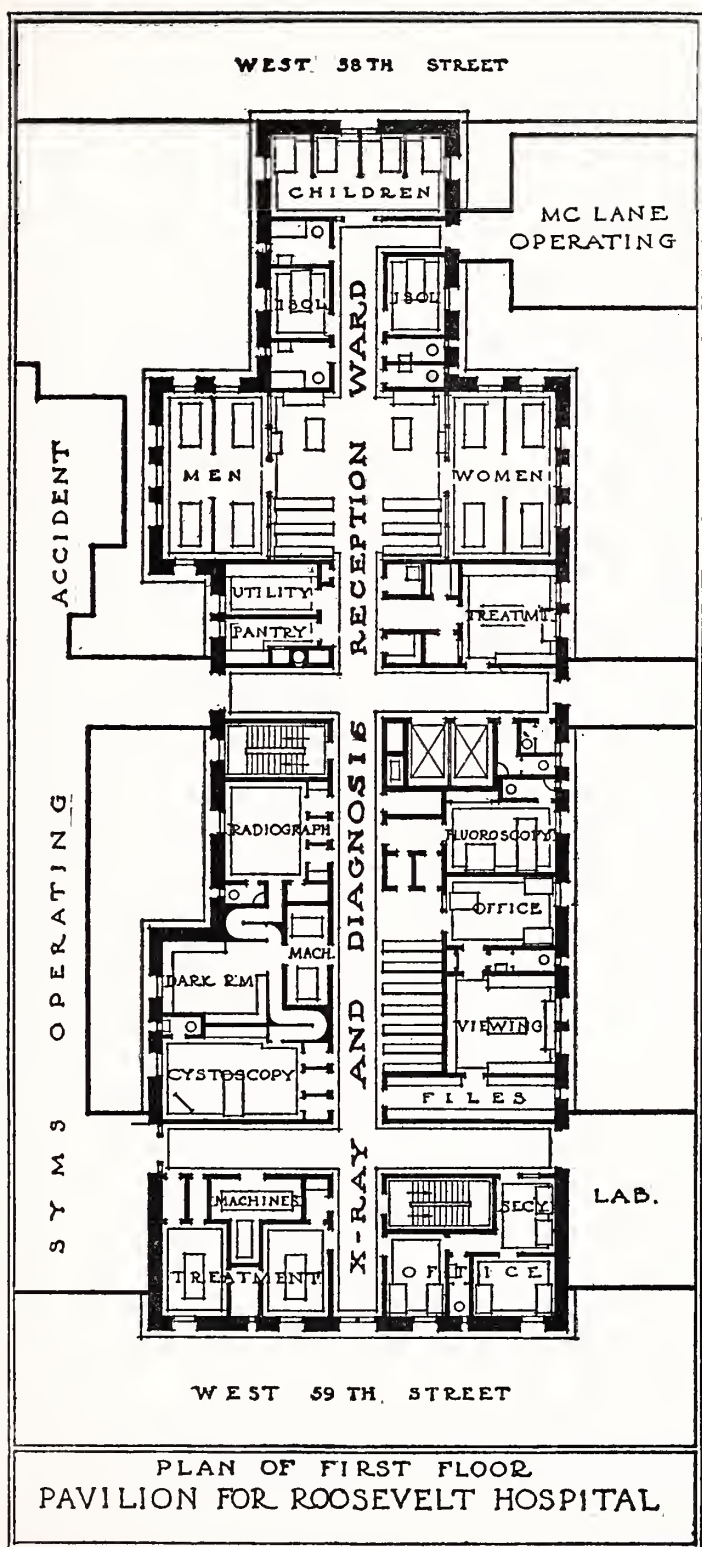

Respectfully submitted,

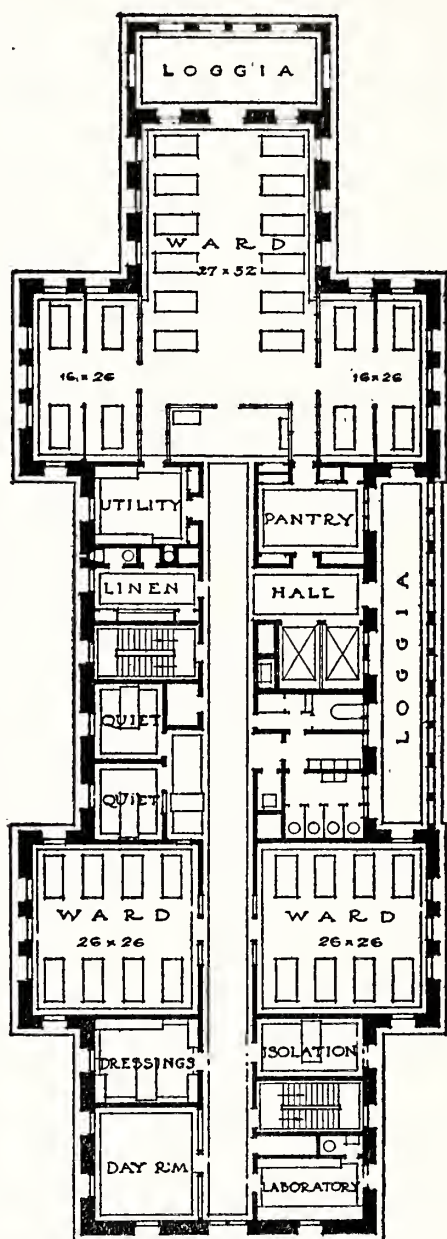

A. ISABELLE BYRNE, R. N.,
Director School of Nursing.

Our greatest handicap this Winter due to the unemployment situation was to act as a clearing house for many of the people, other than patients who came for aid, and whenever possible connect them with the organization that could rehabilitate them most efficiently.

The Volunteer Workers, which average seven, have been able to increase the efficiency of the five clinics in which they work.

EXTRACTS FROM THE BY-LAWS

I. The Admission of Patients

1. Patients suffering from severe accidents or serious illness shall be admitted to the Hospital at any hour of the day or night.

2. Other patients shall be admitted between 9 o'clock a. m. and 5 o'clock p. m. They must apply in person at the office of the Hospital, when they will be examined and recommended for admission or rejection by the House Physician, Surgeon or Gynæcologist, or their Senior Assistants on duty; or, if unable to apply in person, they shall be visited at their homes by the House Physician, Surgeon or Gynæcologist on duty, or one of their assistants.

3. Any member of the Medical Board may send to the wards of the Hospital such patients as he sees fit, giving them a special order for admission, subject to the regulations of the Hospital.

4. No patient suffering from any contagious disease shall be admitted, except such cases of emergency as require immediate attention; and cases so admitted shall be placed in the isolating room only.

5. There shall be posted in the office daily the number of occupied beds in each ward.

6. Application for the admission of patients living out of the city must be addressed to the Superintendent of the Hospital and accompanied by a certificate of some respectable physician, stating the nature and probable duration of the disease.

7. If, in the opinion of the Superintendent, ability to pay exists, such charge as he deems advisable up to \$4 per day may be made for the ward patients' board.

II. Rules for Patients

1. Patients admitted to the Hospital are forbidden to use profane or indecent language; to express immoral or infidel sentiments; to play at any game for money; to smoke tobacco in the house, or to procure for themselves or others any intoxicating liquors.

2. No patient shall be allowed to have any book, pamphlet or newspaper of an immoral or indecent nature.

3. No male patient shall go into any of the women's wards nor any female patient into any of the men's wards.

4. No patients shall enter the dead-house, engine-rooms, kitchen, theatre, or any of the attendant's rooms, except by order of the Superintendent or other officer of the house.

5. No patient shall leave the house without permission of the Superintendent. When desiring to go beyond the Hospital bounds, patients must obtain a card from the House Physician, Surgeon or Gynæcologist, at his morning round, stating that he has no objections, which card, when countersigned by the Superintendent, will serve them as a pass, and will be good for the day upon which it is given, but must be surrendered to the doorkeeper when the patient goes out.

6. Patients admitted to the Hospital must leave with the Superintendent for safekeeping, for which a receipt will be given, any money or other valuables they may have; and in case of their failure to do so, the Hospital will not be responsible for any loss which may occur. The clothing of patients will, if desired, be cared for, but no responsibility assumed for loss or damage. All clothing infested with vermin, or for any other reason deemed unfit to be kept here, will be destroyed on the admission of the wearer unless removed immediately by his or her relatives.

7. No patient may purchase, or solicit any attendant to purchase for him, any articles whatever without permission of the Superintendent.

No member of the House Staff, Nurse or other employee shall receive any compensation, gift or bequest from any patient, unless authorized to do so by the Visiting Committee. Any infraction of this rule makes the employee liable to immediate dismissal.

All complaints should be made to the Superintendent.

8. Patients are admitted only upon condition that they and their visitors comply with the rules, and failure to do so may necessitate their removal.
